Career Objective

Motivated Computer Science undergraduate with a strong foundation in Java, Artificial Intelligence, and Machine Learning. Seeking opportunities to apply problem-solving skills and technical knowledge to build scalable, real-world software solutions.

Education

- **B.Tech in Computer Science (Artificial Intelligence)** 2022–2026
Bansal Institute of Engineering and Technology, Lucknow 69.98%
- **Intermediate (12th Grade)** 2022
Capital Public School, Lucknow 79.2%
- **High School (10th Grade)** 2020
Capital Public School, Lucknow 78.8%

Experience

Software Development Intern, Softpro India Computer Technologies Pvt. Ltd. Jun 2025 – Aug 2025

- Built and maintained the PGI VirtualCare telemedicine system using Java and Spring Boot
- Designed backend modules for consultations, appointment scheduling, and health record management
- Worked with REST APIs, backend services, and relational database design

Projects

Face Recognition Attendance System

- Developed a face recognition based attendance system using Python
- Automated attendance logging with timestamps stored in CSV format
- Improved recognition accuracy through optimized face encoding
- **Technologies:** Python, OpenCV Library

PGI VirtualCare – Telemedicine System

- Engineered a Java based telemedicine system for remote healthcare
- Integrated virtual consultations, appointment management, and digital medical records
- Improved system security and scalability using layered architecture
- **Technologies:** Java, Spring Boot, MySQL, Artificial Intelligence

Technical Skills

- **Programming Languages:** Java, Python, HTML, CSS
- **Databases:** MySQL
- **Frameworks & Tools:** Spring Boot, N8N Automation
- **Developer Tools:** Git, GitHub, VS Code, Google Colab

Interests & Languages

Areas of Interest: Artificial Intelligence, Automation, Backend Development, Full Stack Development

Languages Known: Hindi, English
